Hughes, a young man of thirty-two years of age, a son of the late Henry Hughes, of Staunton, was killed a few days ago, while passing through a tunnel on the Cincinnati Southern Railroad, on which he was a brakeman, by an old-fashioned steam train that struck him on the head. He leaves a widow and one child.

Mr. Julius C. Schlefer, a former Woodstock boy, but for a number of years a prominent citizen of Staunton, is at work trying to organize a cash ball club in that place. He has engaged three professional players from Ohio, and will probably play the rest of his team from the fine amateur material so abundant in Staunton.

The exciting games of base ball will come off there to day between clubs from Edinburg, Woodstock and Strasburg, and will attract a great deal of amusement to the spectators, as the people from each section will feel greatly interested in the playing of their respective clubs.

Our farmers are busy thrashing and the putting of the engines and rattle of the threshers can be heard in all directions. It was at first feared that the long continued and frequent rains had damaged the wheat to a considerable extent, but we learn from a number of sources that the wheat is in good condition, and that the grain is injured but little, if any, and is turning out well both as to quantity and quality.

We learn that the manganese mines of Powell's Fort, this county, will make a fine exhibit of their productions at the great State Exposition at Richmond, this fall. We earnestly hope that some of our enterprising citizens will interest themselves in getting up a creditable exhibition of Shenandoah's resources. No county in the State can make a finer exhibit than this one if our people will only go to work to get it up.

Mr. J. D. Trimble, a prominent farmer of Augusta county, met with a fearful accident while harvesting his last field of wheat several weeks ago. Some weeds had collected under the canvas of his binder and he attempted to remove them while the machine was in motion. The iron fingers caught him just below the elbow and stripped the flesh from that point to the wrist, leaving the bone bare.

A Great Opportunity.

In this season of excursions and reduced fares it is certainly prejudicial to your interest not to take advantage of the opportunity to visit Baltimore when you can save enough on a suit of clothes to pay the expense of the trip by patronizing the Great Harvest Sale for buyers now in full swing at Oehm's Acme Hall, Baltimore's largest clothing and furnishing depot, 5 & 7 W. Baltimore St., 1 door from Charles.

The late floods through West Virginia, are reported to have been terribly destructive, the loss running up into the millions. At Romney, Hampshire county, the South Branch was within three feet of the highest water ever known in that stream, and the splendid corn fields along its course were completely flooded and the crops destroyed, and a very large amount of stock and wheat was washed away.

On Tuesday evening a about dark, while Mrs. W. D. L. Borum and family were sitting in front of their home on the corner of North Muhlenberg and Locust streets, a strange colored man walked past and turned on Locust street towards the railroad. A few moments afterwards a servant girl and him passing through the house. When he found that he was discovered he asked for a drink of water and hastily put out without waiting for it. Policeman Hoshour and others made a search for him but failed to find him.

The M. E. Church will hold a woods meeting in the beautiful grove belonging to Mr. Phineas Orndorff, about two miles southwest of St. Tannery, on Cedar Creek, commencing Saturday, August 4th. The invitation is extended to all denominations to attend and participate in the meeting. The meeting will be under the control of Rev. E. E. Anderson. Rev. J. W. Howard and perhaps other ministers will also be present. If the weather is favorable it will continue for a week or more.

On Sunday evening of last week, the lower or northern portion of Augusta county, was visited by the heaviest rain and hail storm that has been experienced for a number of years. Middle River was suddenly swollen, and rose six feet in a few hours. Large quantities of wheat were seen floating down the stream, and much damage is reported to the corn crop, and to fencing. Mr. Greiner near Mowry's Mill, had his corn and oats crop entirely destroyed by the hail, and suffered other much damage.

The temperature of the dog-days has had no depressing effect on the conductors of Harper's Magazine. The number for August is as fresh and vigorous as May or early June. Most of the staff of well-known contributors are represented in its pages, with here and there a new name. From an artistic point of view, there is no chance for fault-finding. Abbey, Parsons, and Tholstrup furnish some of their best work. In fiction many strong chapters are offered, while the supply of solid reading is in no way diminished. The frontispiece is a charming scene by Abbey, drawn to illustrate the old rhyme about "The Leather Bottle."

The base ball fever is sweeping through the Valley like wild fire, proving as contagious as small pox or yellow fever. Not a town but can boast of two, three, four or even more clubs, while every cross roads has its nine, many of them neatly uniformed and all able to play an interesting game. The crop of bruised, bent and broken fingers, battered faces and bruised shins has grown to large proportions, proving that it is no child's play at least, but on the contrary is just the manliest kind of amusement. Umpires are not at all plenty or anxious to appear in public on the diamond, as it is a thankless position at best, and one that often forces fine chances for a rough and tumble argument.

A prominent merchant of Cabin Hill, informs us that the foot bridge across Painter's Run, about three quarters of a mile from Hamburg, is a fraud. It cost the county about \$50, and according to the above named gentleman, it is as useless as a dog's tail in dry time. He says a wife once tried to bridge it over, but finding it they did so they would be compelled to climb a high staked and ridged fence, and the old gentleman went back a few steps and got a rail which he threw across the mighty stream and on it he and his aged wife passed without the least trouble.

On Monday night of last week, some dirty sneak thief slipped into Mr. P. W. Swartz's house, a few miles northwest of this place, and stole about 50 pounds of the nice dried cherries which his daughters had picked, seeded and dried ready for market. Nothing will stop this little game, now so extensively carried on in this section, but the shooting and killing of one or more of these scoundrels, and we hope that no one will make so great a blunder as to have any money on the first one caught in the act. The person who kills the first one will be regarded as a public benefactor, and will receive the warmest thanks of every honest person in the county.

The Alexandria and Charleston Railroad Company was organized in Alexandria on Saturday last—Hon. John S. Barbour was elected President, and Messrs. Eppa Hunton, Robt. Andrews, Skipwith Wilmer, G. C. Jenkins, Peyton Randolph, C. J. Holland and J. S. B. Thompson, of the Board of Directors. The charter to be subscribed before organization, has been secured. It is proposed by this company to build a railroad from Alexandria to the coal fields of West Virginia, and the best and cheapest route for it to adopt is to utilize the Manassas branch of the Va. Midland Railway to Strasburg, and thence West, forming a new line of the Chesapeake and Potomac Rivers. It is constructed the advantages to our county are untold, and soon thereafter the fires of war would be lighted within our borders.

Mr. I. Hite Bird is tearing away the old house on the corner of the lot of the old grand old dwelling, near to the large yard that surrounds the house. When Banks' army entered this place on the morning of April 1st, 1862, Mr. Jos. S. Hoshour, then a mere boy, led a revolver in the boxing under the eaves of this old dwelling then occupied by his father's family. Strange to say he never thought of the weapon until a few days ago when he saw them tearing away the old house.

Under the eaves and down out the postol that had quietly reposed there during all the remaining years of the war and up to the present time. It was but slightly rusted and showed plainly the maker's name and factory in Glasgow, Scotland.

The Valley Star and Ball Club of this place, left here last Saturday for Strasburg to play a match game with the White House Club, of that place. The Valley Stars, although composed of mere lads, made short work of the Strasburg fellows who are all young men. Only five innings were played when the score stood 64 to 4 in favor of the Woodstock lads. The time of game was 2 hours and 30 minutes.

Mr. Wm. D. Gillett, of the Woodstock, Md. Collieries, complained of feeling dizzy on their return home, supposed to be from running around the diamond so often. They say they were very handsomely treated by the Strasburg players and we are glad to say that the gentlemanly behavior of the entire club won them the good opinion of every one. The next game will be played at Fisher's Hill, on Saturday of this week.
